

Anas Chaabane

Full Stack Engineer | Lot Ghann N 29 Oued Ghnim, Sousse, Tunisia | +216 26951134 | anas.chaabane98@gmail.com | [linkedin.com/in/LinkedIn](https://www.linkedin.com/in/LinkedIn)

Professional Summary

Results-driven Full Stack Developer with 3 years of experience building high-performance web applications. Specialized in React ecosystem (React, Next.js, TypeScript) and modern backend technologies (Ruby on Rails, Node.js, NestJS, GraphQL). Demonstrated success in optimizing application performance and delivering exceptional user experiences. Passionate about clean code and staying current with emerging technologies.

Technical Skills

Frontend: React · Next.js · Redux · TypeScript · TailwindCSS · Radix UI

Backend: Node.js · Express.js · NestJS · Ruby on Rails · RESTful APIs · GraphQL

Databases: MongoDB · PostgreSQL · TypeORM

DevOps & Tools: Git · Github · CI/CD · Jest · Docker basics

Methodologies: Agile/Scrum · Object-Oriented Programming · Responsive Design

Professional Experience

Dieture

Tunisia

Full Stack Developer

Aug '23 - Present

- Architected and optimized API endpoints, reducing response time by 30%
- Engineered scalable front-end architecture using Next.js and React, resulting in 25% faster page loads
- Implemented GraphQL API integration, reducing data over-fetching
- Led refactoring initiative for legacy codebase, improving scalability and maintainability

EnR Agri - La Solution Méthanisation

Tunisia

Frontend Developer

Mar '23 - Sep '23

- Developed responsive UI components with Next.js and TailwindCSS, increasing user engagement by 20%
- Implemented performance optimizations including SSR, Code splitting, and Lazy loading improving load time by 40%
- Integrated complex third-party APIs for payment processing and data visualization

Freelance & Personal Projects

Tunisia

Full Stack Developer

Jun '22 - Present

- **PALLETFLOW**
Built three apps using React, Radix UI, Tailwind CSS, and NestJS:
 - Admin Dashboard for inventory, mission assignment, and issue tracking
 - Transporter App for drivers to follow missions and scan QR codes
 - Partner App to view missions and delivery data
- **Trek Bike Rental:** Full-stack rental application with secure authentication, booking management, and interactive UI (React, Redux, Ruby on Rails)
- **E-commerce Platform:** Scalable solution with advanced filtering and secure checkout (React, Redux, Ruby on Rails)
- **Space Travelers Hub:** Mission booking platform with real-time data integration, (React, Redux, TailwindCSS)

Education

Microverse

Mar '22

Other | Full-Stack Web Development

- Completed 1300+ hours of mastery-based curriculum in Full Stack development
- Collaborated remotely using pair programming and Agile methodologies
- Developed 15+ projects using React, Ruby on Rails, and JavaScript

Ecole Polytechnique Sousse

Sep '21

Other | Preparatory Cycle for Engineering Studies

- Developed strong analytical and problem-solving skills through intensive coursework in mathematics, physics, and engineering fundamentals.
- Gained a solid foundation in scientific and technical disciplines, preparing for competitive entrance exams to top engineering schools.
